

THE  
**WATCHDAWG**  
REPORT  
AMERICA FIRST CONSERVATIVES

## 2024 Primary is August 6

Signs are going up. Candidate events are being scheduled. **It is Primary election season!**

- Polling locations will be open Tuesday, August 6 at 7:00 AM.
- Absentee voting is available at the county clerk's office beginning on June 25.
- Early, no excuse voting is available at the county clerk's office beginning July 23.

The national Trump Campaign and the RNC (Republican National Committee, who we can now respect due to recent upgrades) are advising that early voting is desirable. Do not be afraid to go in and cast your vote early.

Office holders in Camden County are typically chosen during the Republican Primary. I have not seen anything about Democrat challengers so far. The Sheriff's race will not be decided until November 5 because there is a candidate from the Constitutional Party. Pretty good strategy to avoid the crowded primary I suppose. However, avoiding the vetting process by the Republican Central Committee makes any candidate a no-go from the Watchdawg Report's perspective.

Candidate vetting includes a background check, social media review, pass/fail evaluation on a Republican Values Survey, and requires a signature on the Pledge to govern per the Republican Platform.

**Please vote on August 6<sup>th</sup>!**

## Camden County Voters

The next Watchdawg Report in July will contain the Voter's Guide for the August 6 primary election. If you have time to research candidates, that is awesome. If you do not, the voter guide will help you sort out the best candidates.

There is one set of elections we will dig deeper into this month. The Camden County Central Committees seem to be under the radar for most voters. Let's drag all that into the sunshine and see what we see.

The two parties, Democrat and Republican, have well attended committees here in Camden County. Each Township has two representatives that attend monthly committee meetings, work on fund raising and support their party's candidates. They interview candidates to recommend replacements to the governor when a political office is vacated, according to the party holding the office. Historically, this has been a task for the Camden County Republican Central Committee.

Continued on Page 2

The Central Committees are the party leadership here in Camden County. They interface with the Missouri State Democrat and GOP committees, and from there to the DNC (Democrat National Committee) and RNC (Republican National Committee). Because I have represented Adair Township on the Camden County Republican Central Committee for the past two years, I know they work hard with like-minded leadership in other counties to be a Conservative influence on the MO State GOP. As with the General Assembly, there’s work to be done in the Missouri GOP to replace arrogant and foolish establishment state leadership with more energetic, forward thinking Patriots. Full contact information for each member is available on the candidate list on the Camden County Clerk’s page. Look on the second and third sheets of the candidate list document.

Committee members typically run unopposed and therefore are not on the ballot. Some are known in their township, and some are not. Do you know your Central Committee representative? They are volunteers who work to make Political Party Management aware of the views of Camden County citizens. Here is the list of folks that will be in place after August 6.

If you see a blank beside your township and would like to serve on the Republican Committee, contact me and I will get you in touch. We need a full, vibrant committee to support the efforts of hard working local leadership. There will be one race on the August ballot for Republican voters in Warren Township. I sincerely and enthusiastically endorse Ann Marie Bianchi.

# AMERICA FIRST CONSERVATIVES (AFC) *Page 3*

Some of the more energetic activists in the County have come together to form “America First Conservatives.” We are interested in grassroots efforts to bring out 2024 America First voters and provide a positive outlet for those that are fed up and want to contribute to creating necessary change in our country. We will do good works in the community that promote America First Conservative values. So yes, controlled borders, babies safe inside their mother’s womb, zero deficit spending at the state and national level and preservation of Second Amendment rights (all the America First values you know and love) will be topics for discussion and action.

We will be helping those that use services from Share the Harvest and other local charities to bring those that need a ride to the locations where food is available. We will extend those logistics to coordinate rides to the polls or clerk’s office to vote in the August 6 Primary and November 5 general elections. **Plus, we give rides to the Assessor’s office for those 62 and older who own their home, so they can file for the Real Estate tax freeze that must be done before the end of June 2024.**

We hope that those who share America First views will send their name and email to [contact@watchdawgreport.com](mailto:contact@watchdawgreport.com). I (Jennie) will add you to the Watchdawg distribution list so you may enjoy the monthly newsletter, and be invited to neighborhood gatherings as they may occur, to discuss newsletter content, enhance opportunity to work together as a single voice, and discuss the politics of the day. AFC is not a PAC or a 501C3. There is no expectation of dues to be paid, or any money kept by the group. Meetings are never mandatory, and probably better described as Conservative get-togethers. We are not interested in extremism, or labeling anyone as evil as extremists tend to do.

We think that like-minded America First people in Camden County may want to know each other, and occasionally come together for some fun and fellowship centered around love of country. As Steve Bannon says “Ask yourself, what is your task? What is your purpose? If that answer is to save your country, this country will be saved.” Let’s share information and ideas, and talk about confrontational politics in a positive way. How can we effectively remind our elected office holders that they work for us? How can we respond to attacks large and small from The Left without losing our cool? Let’s begin the process of identifying and preparing candidates for the future. Let’s figure out together what kind of power we can muster through petitions, applications for redress of grievances, and **VOTING!**

AFC members will be knocking on doors in July to distribute The Watchdawg Report/America First Conservatives Voter Guide for the August 6 Primary. If you are into that kind of fun, come help out. We enjoy engaging with Camden Countians on the porch. Good people are easy to find here.

If you can help by volunteering to give rides to the food bank, the Assessor’s office or the polls...wonderful.

If you want to stay informed and receive information to help you easily and effectively communicate your views to your elected representatives and that is all, we would be happy to include you with emails only. You choose your level of involvement. The worst thing is if we all sit separately and worry about the issues without an outlet for our ideas and suggestions.

Face Book is cathartic, but it is not effective like a petition, or fun like a **TRUMP TRUCK PARADE**...oh yes, that is coming. **TRUMP BOAT PARADE** too! We can be happy warriors if we embrace that we are powerful together, and that We the People have authority based on rights granted by God, not government.

Here is the official AFC flyer. I hope you will want to sign up with your name and email. Let's communicate as an America First Conservative Community and see where it takes us.
