WATCHDAWG
REPORT

AMERICA FIRST CONSERVATIVES IN CAMDEN COUNTY

The Big Picture for Nov 5th

Bobby Kennedy Jr. and Tulsi Gabbard's support for our Republican Presidential Candidate is amazing, and very much appreciated by logically thinking Americans across all parties. Their brave actions show Americans how important it is to defeat Marxism utterly and forever.

You have only to read Karl Marx's Communist Manifesto (Marxists.org) or Saul Alinsky's Doctrine (vassarbushmills.com) to see the real war now fully engaged.

Informed Americans who realize what is at stake will vote against the Marxist Dems Kamala Harris and Tim Walz. Kamala Harris's father is a Marxist Professor who was at Stanford. Donald J. Harris, whose book Capital Accumulation and Income Distribution critiques mainstream economic theories and proposes a new model to address income inequality, aka Marxism.

Kamala is not a real Democrat, and Donald Trump is not a truly conservative Republican based on the traditional definitions. This war transcends party, and these candidates represent so much more.

Global Marxism vs American Patriotism is the conflict raging in the United States. November 5th is a critical battle front.

Equity vs Equality

by AFC-CC co-founder Lorrie Askeland

If you think back to her 2020 bid for office, Kamala Harris had an ad which explained her idea of equity being more important than equality.

[NEW AD: Kamala Harris explores difference between Equality and Equity in new 2020 campaign video \(youtube.com\).](https://www.youtube.com/watch?v=w4kowE_YIVw)

Use the hyperlink or type in:

https://www.youtube.com/watch?v=w4kowE_YIVw

Most of the time, many people will give the definition of equity as an equal opportunity to succeed. This is wrong. Equal opportunity is the definition of equality.

According to Kamala's ad, each person must begin from the same place so they can achieve their goal at the same place.

Continued at the top of Page 2

Let me put this in perspective. I am a retired teacher. Each student came into my class with different knowledge based on prior years of education and life experiences. All of my students were offered equal opportunities for additional tutoring help, before and after school, lunchtime and study hall. Even with those opportunities, not everyone received an A. Education, job advancement, scholarships, bonuses and more are offered to those who take responsibility for themselves. In life, it is impossible for everyone to begin a career or education from the same place. Never did I consider dumbing down my teaching so that everyone could get the same grade. What has happened to meritocracy? This is a system in which advancement is based on individual ability or achievement. Do we want all of our doctors, pilots, air traffic controllers and plumbers to have jobs based on achievement or ideologies?

I would like to know how having boys in girls' sports is equity. Transgenders and girls are given the same opportunity to compete, but how is there any equity? At least in education, or most jobs, achievement was not based on physical attributes; however, boys definitely have advantages over girls in sports. Thank goodness I was competitive in sports long before this inequity was considered fair.

The Big Picture for Nov 5th – continued from Page 1

Kamala Harris and Tim Walz are Marxists, aka Communists. They tell you that by their actions. Harris is part of the administration (not to mention "Border Czar") that has pointedly welcomed into the United States tens of millions of illegal immigrants. A great number are young men with gang relationships, military aged men from enemy countries and unaccompanied minors who have been left to the cartel's criminal empire of sex trafficking and slave labor.

Population migration is a major component of the World Economic Forum Oligarch's plan to establish Global Government by reducing the United States' position in the world. Overloading the welfare system with need that leads to chaos is described in the Clowerd-Piven strategy. Wikipedia describes it very well if you want to do further research

Harris advocated in campaigns to raise bail money for Antifa and Black Lives Matter rioters who destroyed city buildings throughout California, Oregon, Wisconsin and Washington D.C. Tim Walz lived in China and has visited over thirty times. He is the textbook paid-for CCP plant in a governor's position. The Harris/Walz administration will expand government controls (price caps were proposed, guaranteed income and housing subsidies, student loan transfer to taxpayers, etc.) and restrict the people (more taxes, more power to the health care and military industrial complexes via regulations).

Prior to the deployment of the COVID-19 pandemic by Global Oligarchs via the World Health Organization, the Trump administration's results for Americans included a secure border, tax cuts, low inflation, low prices for food and energy, opportunity zones in urban areas, elevated trade agreements that put America First and reduction of regulation that helped small businesses. America was energy independent. Please understand the significance of that position in the world where our enemies were and are now once again our energy providers.

Harris/Walz will make America look like Venezuela, a once rich country whose people are now living in poverty and experiencing food shortages because of rigged elections and Marxist Communist victories.

In contrast, Trump/Vance will take America down a similar path as current day Argentina, which is on its way to economic recovery and government by the people, for the people. If you are not following President Melel's successes in Argentina, please engage. He is showing us how quickly we can recover when bureaucracy in the Deep State is abolished by strong leadership.

None of this is about Republicans and Democrats. That is the con Global Marxists want you to believe. This war is Americans vs Global Oligarchs. It is fully engaged whether you participate or not. If we can come together to accept this reality and fight back, we can save the United States of America. If you do not participate by voting, you are helping the Marxist Oligarchs. You are helping to establish a new world order with autocratic authority over your children and grandchildren. Put aside the Party vs Party argument that they want you to have inside the Overton Window they created for you. Step back and seek a higher level of understanding. We cannot know all the chess moves in this global fight, but we can see clearly enough to join worthwhile Patriots like Elon Musk, Bobby Kennedy Jr, Tulsi Gabbard and others who recognize that while not omnipotent, Donald Trump is our patriotic choice for President. The alternative is unrecoverable loss of our national sovereignty.

We need to vote in this general election because if/when the outcomes are illegally manipulated in other states, the margin of victory in Missouri will give credit to the movement by Patriots to investigate those outcomes. "Too Big to Rig" is the concept that, for example, a 20% margin for Trump based on voter turnout in Missouri lends support to examination of a 1% margin for Harris in Wisconsin or Pennsylvania. Voter turn-out is the best weapon with which to Stop the Steal. A clear victory for Republicans in the popular vote would be the most amazing mandate ever delivered by Americans.

The Democrat party has been kidnapped by Marxists, and until grassroots members step up to take it back intelligent voters must choose the Republicans who will fight Globalism. We can all go back to bickering about big and small government once this war is over. Right now, we need to fight the war against the Oligarchs. This is fifth generation warfare...battles without bullets. It is a war of narratives. Narratives that divide the people depending on their ability to discern truth.

Early voting and Absentee voting for the general election begin in Camden County on Sept 24. Call the County Clerk's office at 573-317-3890 if you have questions or to confirm that they are ready to receive ballots.

If you would like to join AFC-CC (America First Conservatives in Camden County) to get The Watchdawg Report via email, please contact us with your name and email address. Contact Jennie at contact@watchdawgreport.com, call 660-238-6514 or email Lorrie Askeland at laskelan@gmail.com.

Below is the response received from Rep. Mark Alford regarding our letter asking about the destructive NGO's that are funded with taxpayer dollars. This response is mostly a waste of our time, and did not answer our questions. We will respond to reiterate our specific questions asking him to engage to act on our behalf. AFC's original letter is in the August Watchdawg Report available at www.watchdawgreport.com. AFC-CC members will have input to our next communication as always. Members - Please watch for that email in September.

"Thank you for contacting my office regarding various Non-Government Organizations and their source of funding. I consider each of my constituents a client, and I am honored to represent you on behalf of Missouri's 4th Congressional District.

As you know, Non-Governmental Organizations like the National Democratic Institution, The International Republican Institute, the American Center for International Labor Solidarity and Center for International Private Enterprise, are all 501(c)(3) organizations. When a non-profit makes more than \$50,000, they must file a Form 990 to the Internal Revenue Service. This is a public form that shows where they spend their money. By using ProPublic Nonprofit Explorer I we were able to quickly look at their past filings. These organizations all state they are non-partisan but are very clearly associated to different ideologies. A few of them reference President Reagan's 1982 Westminster Address as to the "why" of their founding In which President Reagan urges democracies to maintain strength from totalitarianism.

Federal funding for agencies like the Department of State and United States Aid begins with the President's budget. Then requests from the State Department and US Aid are sent to the House Foreign Affairs Committee for review. Once the committee approves and determines funding amounts for an appropriations bill it moves to the House Appropriations Committee and later to the House floor. Once the Senate compiles their own bill, the two chambers will debate their bills in Conference Committee until a consensus is met. After Congressional approval, it is sent to the President for their signature. The last time funding was approved for Department of State and Foreign Operations was on March 23rd, 2024.

The actions of any group funding criminal groups within our own country is egregious and highly deplorable. I have spoken at length about the lack of justice this band of hooligans have faced. They deface our national monuments, invade college campuses, and burn American flags while the Biden-Harris administration stands by. This administration has failed to defend and secure American freedoms and lives since they first took office. They hand selected each of these Federal Agencies Directors and give them marching orders. We need to right this ship before even more damage is done. That is why it is so important that we get strong leadership in the White House and Senate. My colleagues and I in the House cannot do this alone. We must make right our national and international policies, remove DEI initiatives and wokeness and bring America back to common sense policies.

I hope this information has been helpful. I am honored to be your voice and your vote in Washington, and I strongly encourage you to continue to contact my office with any thoughts, suggestions, concerns, or questions. If you are interested in keeping up with my work in Congress, please visit my website at Alford.House.Gov to sign up for my newsletter.

*Sincerely,
Mark Alford
Member of Congress*
